

Night Drive

Shadows of street lamps and traffic lights
Hypnotically bounce to and from
Play tricks as I drive through the night
While I indulge in jazz melodies to move my journey along
I love driving along like this
So I can naturally express myself in a song
Ah bliss
The carless road is mine as I flow
Although day break will transform all of this

To a frustratingly and heavy traffic that's slow
So the night and the journey is mine for the moment
Onward and upward I go

As my destination comes into sight
I give thanks for a twilight night
